RADIANT P1500 SERIES POINT-OF-SALE TERMINALS

for the hospitality industry

The Radiant P1500 series point-of-sale (POS) terminal family combines the high performance of today's mainstream computing platforms with reliability that exceeds the requirements unique to food service operations. The P1500 series provides speed of service superiority with large, bright 15-inch touch screen display options and CPU technology that is ahead of the competition. Maximum uptime is ensured by advanced engineering that enables world-class POS performance while supporting fanless, solid-state configurations. Fast, easy-to-use, rugged and reliable – the Radiant P1500 series continues to set a new standard for food service POS terminals.

RADIANT P1500 SERIES POS

SERVE CUSTOMERS FASTER
Serve customers faster and more accurately with a high performance POS terminal that combines superior processing power with top reliability. Using cutting-edge Intel® CPU technology and bright displays, the P1500 series combines speed for your customers with ease-of-use for your staff.

MAKE IT EASY FOR YOUR STAFF
The P1500 series includes display options that are among the brightest available for any POS in the world. Even in well-lit locations, the size and brightness of the P1500 series displays means excellent ease-of-use for your staff. Other ergonomic features include easy and reliable tilt adjustment and an easy-to-use and well placed magnetic stripe reader.

INSTALL IT ANYWHERE
The P1500 series is tough enough to go where you need to put it, with a rugged enclosure and electronics than can withstand spills without interrupting service. Fanless configurations and solid-state storage options further enhance reliability in the notoriously challenging food service environment.

CONNECT IT TO EVERYTHING
With connections for up to fourteen peripherals and five different customer display options, Radiant P1500 series can connect directly to all the retail devices you need to serve your customers quickly and at low cost. Wired and wireless networking options allow secure, high speed connections and the flexibility to place the terminal wherever you need it to be.

REDUCE YOUR COSTS
Eliminate technology-related service interruptions. The Radiant P1500 series is built for non-stop sales reliability, rapid installation and fast return-to-service. Designed with the challenging food service environment in mind, the P1500 series offers highly rugged performance over the long haul.

Radiant P1500 series terminals – faster, brighter, cooler, quieter, tougher and better connected – provide flexible configurations that combine high performance with strong value. Bright 15-inch main displays maximize the order entry speed of your staff while minimizing the use of your space. Connections for up to fourteen peripherals maximize your system investment. Choose the P1500 series for higher uptime and longer life with solid-state configurations, rugged design features and the best service options available anywhere.

SPECIFICATIONS — P1500 SERIES POINT-OF-SALE

Screen / Display	15-inch color, active-matrix, high brightness resistive or capacitive touch screen		
System Core	**P1510**	**P1520**	**P1550**
Genuine Intel® Chipset	810E2	852GM	855GME
